

Critical Information Summary

Acceler8ed Broadband / Fixed Wireless

Information About The Service

The product is a Broadband Internet Connection provided via the DCSI Fixed Wireless network. It is not a 3G/4G Mobile service, but instead involves an antenna installed on the rooftop of the customer premises, cabled to a router indoors.

Requirements and Availability

DCSI Fixed Wireless services are only available to premises that meet a service qualification check. Serviceability is not guaranteed by service qualification check. Line-of-Sight (LoS) obstruction may cause your premises to be classed as unserviceable or require additional infrastructure in order to be serviceable.

LoS can degrade over time due to new construction, vegetation growth or other obstructions. DCSI is not responsible for issues affecting LoS that are outside of our control.

Installation

DCSI Fixed Wireless services require roof access to install a permanent antenna to connect to DCSI's Fixed Wireless Network. DCSI will also need to be able to install a cable from the roof to your desired router location ("demarcation point") – for example, in a home office or a business comms room. You will need to be in attendance for the installation of DCSI Fixed Wireless equipment at your premises.

DCSI Fixed Wireless services require a compatible router to be configured with your service details. DCSI provides a Wi-Fi-enabled wireless router with all DCSI Fixed Wireless services.

Minimum Term

There is no minimum term and you can cancel your service without incurring any additional fees.

¹ The Total Min. Price 1 Month of Service is the cost of a service provided for just one month; that is, any installation/equipment fees, plus the cost of the selected plan for one month, and the cost of terminating the service (if applicable)

² The Theoretical Maximum Speed of Legacy services will depend on the infrastructure used to deliver the service. Acceler8ed Wireless is installed as a first preference wherever possible and is capable of a theoretical maximum speed of 50/20 Mbps. We no longer install new 3/1 Mbps services, nor do we allow reactivation of previously installed 3/1 Mbps services.

Typical Evening Speeds

Theoretical Maximum Speed	Typical Evening Download Speed
3/1 Mbps (legacy infrastructure)	1/3 Mbps
12/1 Mbps (legacy infrastructure)	5-12 Mbps
50/20 Mbps (Acceler8ed)	30-50 Mbps

Other Information

Setup Fee

A new development charge of \$297.00 will apply to first time installations, or where upgrade of Legacy equipment is required for activation. New customers are required to pay the first monthly charge and any applicable setup and hardware costs up-front. Fees may be refundable if activation of the service is unsuccessful for any reason. This fee excludes any applicable "Special Linkage Charges" required to connect your service. For example: non-standard installations.

Fee For Service

A Fee for Service may be charged for any works conducted by DCSI or its third party access providers to resolve a service fault where the fault is not found to be on DCSI or its third party access provider's networks. This Fee for Service is variable and the details of the possible fee(s) will be disclosed to you prior to the works commencing or the booking of an appointment. They are subject to the customers' approval before proceeding.

If the customer rejects the possibility of a Fee for Service, it is possible that a service fault cannot be resolved by DCSI or its third party providers.

Residential Grade Service

DCSI connections are residential grade services with no guarantee of consistent speeds or uptime. If you are seeking a Business Grade Service please visit <http://business.dcsi.net.au/> or call 03 5624 1199.

Priority Assistance

Priority Assistance is a service to provide the highest level response in the event of service failure. Priority Assistance is a service for customers who have, or who are living with someone who has, a diagnosed life-threatening medical condition and whose life may be at risk without access to a fully operational phone service.

We cannot offer Priority Assistance at this time. Should you require this service, you should apply for services through a telecommunications provider who can offer Priority Assistance. Telstra are a telecommunications provider who offer a Priority Assistance service.

Connection Speed

The service speed of your plan is a theoretical maximum. DCSI connections are residential grade services with no guarantee of consistent speeds. Data transfer speed is dependent on a number of variables beyond our control, including: your local network configuration, infrastructure limitations, environmental conditions, and the potential for congestion on third party networks.

Excess Data Usage

Both uploads and downloads contribute towards your monthly data allowance. You will not be charged any extra for exceeding your data allowance. Instead, your service will be slowed ("shaped") to 512Kbps in both directions for the first 500MB in excess of your limit, and 256Kbps in both directions thereafter.
